Welcome

HOUSE OF DELLA® is a high quality natural hair and skin care brand that is proudly produced in South Africa. At House of Della®, we are very passionate about producing organic products with a healthy and restorative powers of natural plants sourced locally and internationally. Our products are free from synthetic, and harmful chemicals such as Mineral Oils in hair care products, and Sodium Lauryl Sulphate (SLS/SLES) which is common in most shampoos and face/body wash products.

Vision

our vision is to establish House of Della® as one of South Africa's natural-organic brand that represents high quality in personal care products, while embracing natural health and beauty.

Mission

Our mission is to produce high quality natural hair, and personal care products using organic ingredients sourced in both local and Global continents. We are actively participating in advocacy campaigns to get our customers to start educating themselves on the benefits of using natural-organic personal care products. We also participate in Global trade missions to promote our very own South African manufactured products.

Our Values

We value Honesty and transparency in our interactions with customers, and associates. We also treat people with respect, which is one of our most valued principle an often referred to in South Africa as "Ubuntu"

Certificates and Membership

- + Our products have been tested and certified by a reputable lab in South Africa with a Global presence worldwide.
- + We are a proud member of the Cosmetics Export Counsel of South Africa.
- + House Of Della is also a registered with Proudly South African.

ORGANIC Treatment Conditioner

What is it?

Tea tree and Jojoba Treatment Conditioner

Ingredients:

Cetostearyl alcohol, Shear butter, Coconut oil, Sweet almond oil, Vitamin E oil, Glycerol, Castor oil, D-Panthenol, Jojoba oil, Tea tree oil, Peppermint oil, Rosemary oil.

What is it formulated to do:

The Natural Anti-Dandruff Treatment Conditioner is combined with gentle cleansers to clean and revitalize hair and maintain scalp health. Infused with Natural Oils to fight the fungus that causes dandruff without drying out the scalp and encourage hair growth by helping to unclog hair follicles and nourish the roots. Jojoba oil is included to smoothen and recondition dry damaged ends for soft hair that shines with health.

How to use:

For external use only. After using the shampoo, rinse well. Gently massage a sufficient amount of conditioner through the hair and scalp. Leave 1-2 minutes. Rinse thoroughly with warm water.

ORGANIC Hair Oil

What is it?

Tea tree and Jojoba Treatment Hair oil.

Ingredients:

Sweet almond oil, Vitamin E oil, Glycerol, Castor oil, Jojoba oil, Tea tree oil, Peppermint oil, Rosemary oil.

What is it formulated to do:

This hair oil is for Itchy, Dry and Damaged Hair, and Scalp. Infused with Natural Oils to fight the fungus that causes dandruff without drying out the scalp and encourage hair growth by helping to unclog hair follicles and nourish the roots, and jojoba Oil: to smoothen and recondition dry damaged ends for soft hair that shines with health.

How to use:

Shampoo and condition your hair as you normally would. Afterward, towel dry and comb out your hair. Add about 10 drops of the oil to the palm of your hand. Gently rub your hands together to disperse the oil. Massage the oil into your scalp, working it all the way to the ends of your hair. If your hair is especially long and thick, you may need a bit more oil. If it's very short, cut back a bit. Leave the oil on and then dry and style your hair as usual.

ORGANIC Hair Food

What is it?

Tea tree and Jojoba Treatment Hair Food.

Ingredients:

Shear butter, Bees wax, Coconut oil, Sweet almond oil, Vitamin E oil, Glycerol, Castor oil, Jojoba oil, Tea tree oil, Peppermint oil, Rosemary oil.

What is it formulated to do:

This is a Natural Scalp & Hair Food Soothes & relieves dry, itchy, flaky scalp. Infused with Tea tree oil to fight the fungus that causes dandruff without drying out the scalp and encourage hair growth by helping to unclog hair follicles and nourish the roots. Jojoba included to smoothen and recondition dry damaged ends for soft hair that shines with health

How to use:

Apply lightly to scalp as often as desired, and massage for a few minutes. Comb thorough and style as usual.
